Direct Deposit Details

You can have money from your paycheck go into multiple accounts. For example, you can have 50% of your check go into a savings account, and the remaining 50% go into a checking account, or any percentage you'd like. You can also put a fixed dollar amount in one account and the rest go to another account.

Enter below how you want your paycheck deposited into your bank accounts. Please put any fixed amounts first and call us if you have any questions.
